

POWELL & BONNELL

STOOLS

CONTRALTO STOOL

## OUR STORY

Perfect, harmonious proportions, a joyous expression of refined elegance, warm and enduring materiality, are some of the distinguishing features of our design practice recognized for seamlessly merging modernity, heritage, and understated luxury.

A story that began more than 30 years ago, our studio thrives on the exploration of new ideas. We began designing and handcrafting stools to complement the lifestyle of our clients, then developed our expertise over time through our in-house creative talent, collaboration with renown, local artisans, and a fearlessness to test ideas and refine solutions.

This tactile approach has endured and guided the development of our collection of inspiring, elegant, customizable pieces of lasting value.

#### CRAFTSMANSHIP

All our stools are designed and made in Toronto by dedicated artisans connected to traditional, enduring methods. This tangible approach allows our collection to be both flexible and complex, converging a clarity of vision and obsessive attention to detail, with our ability to offer a large selection of material options and finishes.
